<b>KING, Tara</b> PhD			
<b>Patient Population</b>	<b>Disease State</b>	<b>High Level Indicators</b>	<b>Project titles/Specific Interests</b>
Community		Leadership QI Simulation Cultural Technology/Innovation Education (faculty/student)	My MSN is in community health nursing and I practiced in the community as a home care nurse for premies and was also a school nurse for a time. I practiced for 20 years, mostly in adult trauma and neonatal ICU. I have experience in simulation and technology. My dissertation was about using web conferencing to connect culturally dissimilar groups across countries to see if there was a shift in cultural competence.
